Here at Bagel King, we pride ourselves in providing the highest quality product for you and your family. We are Tinamarie and Mike Schmit, owners of Bagel King Restaurant and Bakery. As proud parents of three wonderful girls, we understand the importance of providing healthy, nutritious meals to support your child's active minds and bodies. The school lunch program is something we are very excited about.

About our food:

- We have gluten-free, dairy-free, vegetarian, vegan, and soy-free options.
- Our lunches are provided in adorable eco-friendly paper bags.
- We use only unprocessed white-meat chicken.
- Our produce is always fresh, never canned or frozen.
- Our meals are not saturated with oils and butter.

How to order:

Go to bkschoollunch.com and sign up. Once logged in, be sure to read the information on the main page before ordering. When you're ready to order, select your child's school with the menu for the month. You can order for as many days of the month as you like, but orders for multiple children will have to be submitted separately!

Meals are \$6.50 each, including your drink choice.

Orders placed for the same day must be submitted by 5:55 AM. We cannot take orders over the phone after the cut-off time. Pay extra close attention to the dates you are ordering for; if you order for the wrong dates/week, you can email us at info@bagelking.net with your and your child's information including which school they attend, and we will issue a refund and you may re-order for the correct dates.

Food Allergies:

We are diligent about your children's food allergies that pose a risk to their health. There are two areas to indicate any food allergies for your child when ordering.

COVID Precautions:

We are taking extra precautions to keep everyone safe from COVID. All employees are subject to temperature checks and wear gloves and masks during food preparation and serving lunch on-site.
