Fall 2026

A Place to Grow:

Where learning continues beyond the school day

S.O.A.R. @ Park Maitland is built around five core areas: PLAY, CREATE, WONDER, LEARN, and EXPLORE. Each is designed to support your child's growth beyond the classroom. These pillars provide meaningful experiences that foster academic, social, and emotional development, all while ensuring students have ample time for creativity, exploration, and enjoyment.

S.O.A.R Program

S.O.A.R. is more than just a name; it reflects our commitment to creating a well-rounded, enriching, and fun environment where students can explore new interests, unwind with friends, and enjoy a smooth finish to their school day. Each day students will meet our trained staff in their designated location on school campus. Once they have checked in, our staff will provide homework help, snack, and fun structured activities.

S.O.A.R. begins at the end of the school day and runs until 5:45 pm. Each afternoon includes time for snack, an additional recess break, and rotating activities aligned with the core areas. Students may choose between quiet time for homework and more active or creative play options.

Scheduled Start Time by Grade Level:

K4/K5: 1:55pm

Grades 1–4: 2:45pm

Grades 5: 3:20pm

Middle School: 3:35pm

Clubs & Activities

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

These optional experiences enable students to explore a wide range of activities, including STEM, performing arts, and sports, and special interest clubs.

Participation in these clubs is optional and open to all students, regardless of whether they are enrolled in the daily S.O.A.R. program.

Extended Day

Extended Day

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Clubs & Enrichment

Fall Club Offerings

Archery

After-school archery offers a remarkable avenue for children to acquire and enhance their archery proficiencies. Attendees will receive comprehensive instruction in the core principles of archery, encompassing aiming techniques, shooting methodologies, and strategies to augment accuracy. This program fosters camaraderie among like-minded peers. It is worth noting that the instructor has certifications from both USA Archery and the US Center for SafeSport, ensuring a safe and professional learning environment. Ultimately, this archery program provides an exceptional after-school pursuit, combining skill acquisition, recreational enjoyment, and personal growth.

Grades: 1st-8th

**Day Offered & Time: Thursdays 2:50-4pm/
4pm-5:10pm**

Cost: \$455

Instructor: Mason Gregory (outside vendor)

Brain Games

Instructor: Jessica St. Gelais

Cheerleading

Girls will learn cheers, chants, cheer motion techniques, and basic jumps. Mrs. Kelly will pick up the girls from Aftercare or another after-school activity to begin practice.

Grades: K4-3rd

Day Offered & Time: Monday or Tuesday 2:50-3:30

Cost: Mon. \$360 Tues. \$390

Instructor: Amiee Kelly

Culinary Kids

We strive to share our knowledge and passion for food, chemistry, and math with the next generation. Our goal is to help your child expand their culinary pallet, learn about different cultures, history, and healthy eating through food to become self-sufficient in the kitchen, all while helping them build a safe, and informed lifestyle. We help reinforce Math and Science lessons learned in their daily school classes. We also help develop a well-rounded student by introducing them to unique ingredients, fruits, and vegetables used in different world cuisines. Our program helps students develop a broader palate and overall better eating habits

Grades: All grades

Day Offered & Time: Mondays 1:50-2:45, 2:50-3:45, 3:45-4:45

Cost: \$547.50
