Technology - iPads + Keyboard Case

All 6th Grade students will receive their school managed iPad and charger on the first day of school. For returning students, this is the same iPad that was assigned to them previously. The school will push all the required grade level apps to the iPads prior to the first day of school.

We require that students provide a protective case / keyboard for each iPad. The case/keyboard combos we highly recommend are made by either Logitech or Zagg. We recommend selecting one of their more rugged cases to endure the daily handling and transport of the iPad. For returning students, you may continue to use the same case/keyboard as last year. If the old one is no longer in optimal conditions, you may consider providing a new one. You will receive more communication regarding this and the iPad model prior to the start of the school year. Students should utilize the same carrying bag to protect the iPad as they did in 5th grade.

***Carrying a backpack throughout the day is optional. Please remember it must fit easily inside the lockers.*
