Spring 2024

A Place to Grow:

Where learning continues beyond the school day

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

Extended Day

Our extended day program offers families an opportunity to extend their child's day in a safe and fun environment. Each day students will meet our trained staff in their designated location on school campus. Once they have checked in, our staff will provide homework help, snack, and fun structured activities.

Program details:

- Hours: Dismissal until 5:45 daily
- snack provided
- follow classroom ratios
- On campus program
- Before care is available for K4 students from 7:15-8:35

Clubs & Enrichment

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

Program Details:

- Hours: Varies by Club & Enrichment
- Dedicated and specially trained staff members in specialty area.
- All clubs are on campus
- Registration for each club required.

Extended Day

Extended Day

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Clubs & Enrichment

Spring Club Offerings

Archery

After-school archery offers a remarkable avenue for children to acquire and enhance their archery proficiencies. Attendees will receive comprehensive instruction in the core principles of archery, encompassing aiming techniques, shooting methodologies, and strategies to augment accuracy. This program fosters camaraderie among like-minded peers. It is worth noting that the instructor has certifications from both USA Archery and the US Center for SafeSport, ensuring a safe and professional learning environment. Ultimately, this archery program provides an exceptional after-school pursuit, combining skill acquisition, recreational enjoyment, and personal growth.

Grades: 1st-8th

**Day Offered & Time: Thursdays 2:50-4pm/
4pm-5:10pm**

Cost: \$560

Instructor: Mason Gregory (outside vendor)

Art Club

In Art Club, students create artwork in a fun and relaxing environment and have an opportunity to express themselves through a multitude of mediums. Artists will get to explore through teacher-led projects that develop skills, and allow for personal growth and individuality while listening to music and chatting with other like-minded students. Have your child join this nurturing artistic community!

Limit: 12

Grades: 1st-4th

Day Offered & Time: Thursdays 2:50-3:45pm

Cost: \$420

Day Offered & Time: Monday 3:15-4:15

Cost: Tues. \$420

Instructor: Mikaela Marra

Culinary Kids

We strive to share our knowledge and passion for food, chemistry, and math with the next generation. Our goal is to help your child expand their culinary pallet, learn about different cultures, history, and healthy eating through food to become self-sufficient in the kitchen, all while helping them build a safe, and informed lifestyle. We help reinforce Math and Science lessons learned in their daily school classes. We also help develop a well-rounded student by introducing them to unique ingredients, fruits, and vegetables used in different world cuisines. Our program helps students develop a broader palate and overall better eating habits

Grades: All grades

Day Offered & Time: Mondays 1:50-2:45, 2:50-3:45, 3:45-4:45
